

Town of South Bethany
South Bethany Charter and Code Committee (SBCCC) Report
August 2021

The SBCCC met in person on June 18th 2021 at 2:00 in the Town hall. All members were in attendance.

Final suggested wording changes for the revision of the Town's code dealing with the use of portable generators and air compressors, when electric service cannot be obtained, were reviewed. The code changes have been sent to the Council for a first reading.

The committee is working on two other efforts currently: One dealing with permitting contractors to work on interior efforts that do not create a sound/light nuisance for neighbors, during prohibited 'construction' times. The other addresses allowing certain types of structures to be built in the rear setbacks of properties. Both of these requested changes were suggested by Joe Hinks and will be brought to the Council for review and readings by the end of the current year.
