

COMMUNITY ENHANCEMENT COMMITTEE

CEC TC MEETING REPORT

MARCH 11, 2022

CEC MEETING – The CEC is confirming an April Meeting the week of April 25th.

UPDATES ON TOPICS DISCUSSED

- 1) The status and condition of the oyster beds and the grasses installed in the canal waterways.

Sue has spoken with the Town Manager, the previous WQC Chair, and Councilman Abbott regarding these issues. The CEC is waiting for feedback from the WQC.

- 2) South Bethany Property Owner's Association (SBPOA) Donation

- The SBPOA has donated funds to support the following initiative: 1) A landscaped canal end located at the corner of Peterson and Anchorage. The funds will support professional landscaping and a bench. The project will begin as soon as the bulkhead replacement project is completed. Sue will reach out to nearby property owners to find citizens willing to adopt and maintain the rejuvenated canal end.
- The SBPOA has donated funds to support the following initiative: 2) Two new maintenance free composite Little Free Libraries have been ordered; one will replace the existing LFL on the oceanside and the other one will be located in the information area on York Road. Funds will also support the new build of a new LFL for the Town Hall location. This replacement LFL is being created by property owner Frank Weisgerber.

- 3) Noticing the poor condition of the Anchorage Forebay information sign, Sue has reached out to the CIB to obtain original files to create a replacement sign.
