

COMMUNITY ENHANCEMENT COMMITTEE

CEC TC MEETING REPORT

APRIL 8, 2022

CEC MEETING – The CEC has confirmed a 1:00 pm meeting on Friday, April 29th 2022.

UPDATES ON TOPICS DISCUSSED

- 1) The status and condition of the oyster beds and the grasses installed in the canal waterways.

Sue has spoken at length with the WQC Chair, Chris Vanuga, and the WQC has established specific plans regarding these issues.

- 2) South Bethany Property Owner's Association (SBPOA) Contribution

- The SBPOA has donated funds to support the following initiative: 1) A landscaped canal end located at the corner of Peterson and Anchorage. The funds will support professional landscaping and a bench. The project will begin as soon as the bulkhead replacement project is completed. A letter has been prepared and will be mailed to nearby property owners the week of April 11th to assess their interest in adopting and maintaining the rejuvenated canal end.
- The SBPOA has donated funds to support the following initiative: 2) Two new maintenance free composite Little Free Libraries have been received; one will replace the existing LFL on the oceanside and the other one will be located on York Road next to the town's Information Board. Funds also support the build of a new LFL for the Town Hall location. This replacement LFL is being created by property owner Frank Weisgerber. All new LFLs will be installed the week of April 19th in celebration of Earth Day.

3) Anchorage Forebay Sign

- Since this educational sign was in such poor condition, per request to the CIB, the original files for the sign were sent and a replacement sign was prepared and installed at the site.
