

**TOWN COUNCIL REPORT**  
**APRIL 8, 2022**  
**BICYCLE & PEDESTRIAN SAFETY AD-HOC COMMITTEE**

The Bicycle & Pedestrian Safety Committee (B&PSC) last met on March 18<sup>th</sup>.

At Council's request, the Committee discussed streets in town that may benefit from the placement of temporary speed bumps. Several streets were identified as possibilities and the list will be presented to Council at a future meeting.

Several members reported on their work researching potential educational efforts or informational materials that could be developed to increase bike and pedestrian safety in Town. A "how-to" flyer will be developed for both pedestrians/cyclists and drivers on how to use the crosswalk beacons (RRFBs) on Coastal Highway.

The Committee is planning a safety event for the morning of July 16<sup>th</sup> at Town Hall. Both the SBPD and the BBVFC will be participating. The event will be designed to educate residents and visitors about safe walking and riding and will feature bicycle safety checks, safety gear giveaways, and potentially a raffle.

The Committee acknowledges and thanks our Public Works staff for the timely placement of safety stencils and/or signs on the following streets: Black Gum, Cattail, Tamarack, Canal, Anchorage, and Bayshore Drives; and Evergreen and York Roads.

Respectfully submitted,  
Edie Dondero, Chairperson
