

Mayor Report
March 6, 2023

1. Attend the March ACT meeting on March 2nd. DNREC announced that the contract to re-nourish beach dunes for the Delaware coast will occur from north to south starting in Rehoboth. The project will go from March through early July. The project is now 2 weeks ahead of schedule which is good news for South Bethany. We are now scheduled to begin mid-May. Greater details on the South Bethany scheduling will be available in the next 4-8 weeks.
 - DNREC also stated they are working to improve routine cleanup of the Assawoman Canal.
 - Also discussed ACT supporting the updating of “The contribution of the Coastal Economy to the State of Delaware”. The ACT Mayors agreed to support as this economic data may be utilized by ACT and individual Towns in support of coastal infrastructure and resiliency needs.
2. Worked with the Town Manager to identify where to place additional Mobi mats for the upcoming summer season. The two crossovers identified were both in Sandpiper Village. These were selected due to it being flat and not on the east side of the large dune. Additional mats will be purchased to meet this need. Cost will be less than \$10,000. As we discussed this is being done as the handicapped ramp at S 3rd will not be available this season.
