

**TOWN COUNCIL REPORT
RESILIENCY COMMITTEE
APRIL 12, 2024**

The Resiliency Committee last met on March 18th and will meet again on Monday, April 29th at 10am.

Town Manager Hartman and I met with the team from AECOM to discuss the York Road project. They are working on defining the boundaries of the project area and beginning to gather available data. Preliminary field work is expected to begin soon. The project is due to be completed by the end of the calendar year.

I will be attending a training in Dover on May 9th co-hosted by the University of Delaware's IPA program, DNREC and Sea Grant entitled "Creating a Flood Ready Community."

Respectfully submitted,
Edie Dondero, Chairperson
