

South Bethany Charter and Code Committee Report
May 2, 2024
Submitted By Robert Biciocchi, Chair

Redundant to the Town Manager's Report on the Code Modernization project:
There was an in-house review of the draft modifications to the Code document.
Both the Solicitor and the Chief of Police are reviewing legal recommendations and law enforcement interpretation.

Upon completion, the working draft will be prepared by General Code and will be available for review and discussion to the Town Council and then directed to the Charter and Code committee for actions determined by Council.

CCC will hold a June meeting to approve Past meeting minutes and to respond to the Code Modernization directives defined by Council.
