

Community Relations Committee Update
October 5, 2024

The CRC hosted a Coffee with Conversation event last month with Joe Hinks, the Town Code Enforcement Officer. It was very well attended and intellectually stimulating. Joe covered such issues as permitting, FEMA, and fire pits. The next Coffee with Conversation will be held on October 18 at 9:00 with Councilwoman Cindy Van Horn. Public Comment is welcome.

The Fall Bonfire was held on Friday Oct 4. It was a blazing success. It was very well attended and the weather was perfect for this event.

The Holiday Tree Lighting and Community Food Drive events are scheduled for December . More detailed information on these events will be forthcoming.

The CRC recognizes that the Adopt-the-Canal Program is in its sunset years. The Public Works Department has been taking over the maintenance of the Town canals that are no longer “adopted” but should not be neglected. We are thankful for all property owners who continue to provide a splash of pizzaz to their neighborhoods.

The CRC will be working with the Historical Society to replace the 10 year old Storyboards on Russel Road which are quite weathered and, in one case, need to be updated. This project will be in the budget for 2026. More detailed information will be available in the coming months.

Respectfully,
Chris Keefe
