Virtual Workshop: Stewarding South Bethany's Future

The Rossi Group will lead a virtual-only interactive workshop on November 19th from 9 a.m.-10:30 a.m. about South Bethany's new Comprehensive Plan. This virtual-only workshop will focus on the draft vision statement that will guide the town over the next ten years. You will have the opportunity to provide feedback and help shape the strategies to achieve that vision. To register to receive the link to join the workshop, click here. There is also a flyer with the link to register for - and attend - the workshop posted on the Town website. Please reach out to Town Hall with any questions or access issues.

Beach Conditions Report

There has been no change in the status of the beach walkways; they remain closed indefinitely due to the damage from the September nor'easter. As a reminder, you can still access the beach safely from the two walkways on Seaside Drive or from the south end of Town by the State Park.

With the amount of dune loss we have already experienced this fall, we are very concerned about the impacts of additional erosion. There is a high likelihood of additional storms this winter, and another major event could potentially result in breaches of the dunes. Oceanfront property owners should be mindful of this possibility in the event another nor'easter develops.

Emergency Preparedness Tip of the Month

Change the batteries in your smoke alarms and carbon monoxide detectors. If you need assistance, or a free smoke alarm with a 10-year battery, contact the Bethany Beach Volunteer Fire Company who will be happy to assist.
